

ICAE 2013

The 2nd International Conference
on Advanced Electromaterials

Nov. 12 - 15, 2013, ICC Jeju, Jeju, Korea

- Organized by : The Korean Institute of Electrical and Electronic Material Engineers

- Sponsored by : Jeju Convention & Visitors Bureau

- Technically Sponsored by :

미래창조과학부 글로벌프론티어사업
(재)멀티스케일 에너지 시스템 연구단
Global Frontier Center for Multiscale Energy Systems

1 Objective of Research

- To find the basis for the development of solar and molecular energy as an alternative to fossil fuels thereby implementing an innovative approach for a highly efficient multiscale future energy system
- To create a new scientific blended technology based on multi-scale energy research

2 Research Overview

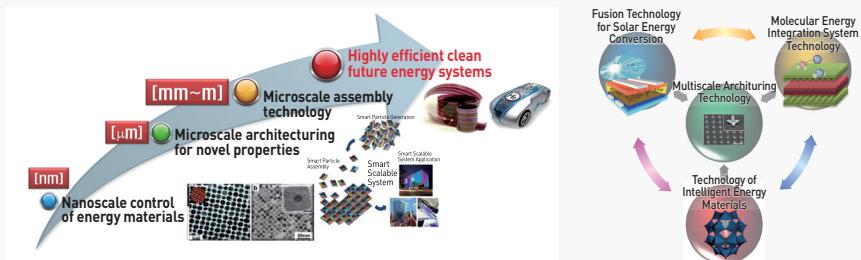

- Research Period: 2011. 9 ~ 2020. 8 (9 years)
- Research Budget: about USD 10 millions
- Director: Professor Mansoo Choi (Seoul Nat' University)
- Participating institution: SNU, KRICT, KAIST, Hanyang U, KIMM, Sogang U, Yonsei U, SKKU, KIST, POSTECH, KIER, Korea U, GIST, Ewha U, Pusan U, UT Dallas and 16 institutions included
- Participants: 420 researchers per year

3 Research content

- To research a multi-scale architecturing technology that integrates nano, micro and macroscales
- To research a new concept of solar and molecular energy convergence systems
- To develop a nanoscale of energy resources

4 Strategy

- To build a non-profit organization that performs four core research projects
- To secure world-class technology based on the values of challenge, convergence, and openness
- To build a global evaluation system through peer review process from international counseling advisors
- To accommodate moving targets; future target to be subject to change and be upgraded according to technological and social environment developments

Welcome Message

It gives me great pleasure to welcome all of you to the International Conference on Advanced Electromaterials(ICAE) 2013 on behalf of the Korean Institute of Electrical and Electronic Material Engineering(KIEEME).

ICAE 2013 is held at the international convention center in Jeju from 12th to 15th of November, 2013. 1,105 papers will be presented at 13 symposiums during this session. Number of papers in this conference exceeds 20% of ICAE 2011. I'd like to express thanks to the Organizing Committee, who have dedicated their effort for the successful hosting of this conference.

KIEEME was founded on 1987 and members of this institute are about 4,500 persons, including professors in universities, researchers in professional research centers and business men in various companies. Its major activities are publishing journals in Korean and English monthly, holding conferences annually and holding ICAE biennially. I look forward to you joining a member of KIEEME. If you join during this session, you are granted exemption of the entrance fee and the one year membership fee.

Jeju is one of the most beautiful area in Republic of Korea, which was designated as UNESCO World Natural Heritage. There are bountiful forests and ravines, fantastic rock formations and volcanic craters, and caves and grasslands that together paint a natural scene of breathtaking beauty. I hope all of participants are enjoy Jeju's Scenery and Korean food during this session.

Finally I welcome you once again to ICAE 2013. I hope all of participants gain a successful achievement in this conference and have a safe journey in Jeju.

Prof. Joon Tae Song

Honorary Chairman, ICAE 2013

President of the Korean Institute of Electrical and Electronic Material Engineering

Welcome Message

Dear prestigious delegates,

Welcome to Jeju Island, one of the New Seven Wonders of Nature!

Following the footstep of the huge success of ICAE 2011, which attracted more than 900 participants from 19 countries, ICAE 2013 is expecting approximately 1,100 papers presented by more than 1,000 eminent scholars, researchers and young students from all around the world. There will be thirteen topical symposia in such areas of ferroelectric and piezoelectric materials and devices, green energy materials such as solar cells and fuel cells, functional thin films and devices, energy storage materials, transparent electronics, printable electronics, “soft” organic electronics, smart nano-materials and devices, advances in nanotechnologies, new and emerging optoelectronic materials and devices based on LEDs and OLEDs, advances in semiconductor technologies.

Through your active participation, I am certain that you will have chances to obtain the state-of-the-art in the fields mentioned above, and thereby equip yourself with the most up-to-date knowledge. This will, in turn, contribute to the advancement or progress in every field in which ICAE 2013 is preparing open forums.

Since last year, we have been preparing ICAE 2013, and I must say it has been my great pleasure and an honor to serve as the chairman of the conference, and I am really appreciating all symposium organizers who have put much of their times and sacrifice themselves for the successful conference. Thanks are also due to keynote and invited speakers, who are with no doubt leading scholars in their own expertise. Last, but not least, I would also express my deep appreciation to all members of the organizing committee, international advisory committee and secretariat for all their efforts.

Apart from the conference activities, I would like you to have a chance to enjoy some of the famous tourist attractions in Jeju Island, or simply relax and recharge yourself. November is probably the best month of the year in many aspects. The weather is usually mild with daytime highs of around 20 degree Celsius. There are several tracking trails along the coastline, or if you like, you may hike to the top of the Halla Mountain.

Once again, I would like to extend my sincere thanks to each of you, for your valuable contribution to the conference.

Thank you!

Prof. Hee Young Lee

General Chairman, ICAE 2013

Conference Information

Registration

The registration desk will be operated during the conference according to the schedule below.

Registration Desk

Location	Conference Room Lobby 3F	
Operating Time	08:00-18:00	November 12 [Tue.] - 14 [Thu.]
	08:00-15:00	November 15 [Fri.]

Registration Fee

Category	On-site Registration	Registration Fee Includes
Regular	USD 650	eProceedings, Technical Sessions, Conference Kit, Welcome Reception, Banquet, Lunches
Student	USD 300	Banquet, Lunches
Accompanying Person	USD 250	Welcome Reception, Banquet, Lunches

Personal Envelop

A personal envelop of registration is provided to each participant at the registration desk. It contains a name badge, a certificate of attendance, a receipt for the registration fee, coupons for conference kit, lunches, and banquet.

Name Badge

For security purposes, participants must wear their name badge to access the conference. You will be given a name badge when you register. If your badge needs correction, please visit the registration desk for a replacement.

Conference Kit

A conference kit desk will be located separately near the registration desk. Please exchange your conference kit coupon with the conference kit. It composes a conference bag, program book and eProceedings.

Announcement & Message Board

Announcement and Message Board will be set up near the registration desk area so that participants can get useful information from the secretariat or other participants.

Conference Information

Internet Lounge

Operating Time	08:00-18:00 08:00-15:00	November 12 [Tue.] - 14 [Thu.] November 15 [Fri.]

Free internet service is available at the internet lounge.

Speaker's Room

Location	Room 300	
Operating Time	08:00-18:00 08:00-13:00	November 12 [Tue.] - 14 [Thu.] November 15 [Fri.]

- Please visit the Speaker's Room to check your presentation file at least 3 hours before your session starts to ensure your presentation file appears properly.
- If your presentation file contains animations or movies, you are advised to check over the technical matters 6 hours prior to your session.

Coffee Break

Enjoy your break a cup of coffee or tea that will be prepared as below.

Location	Conference Room Lobby 3F	
Operating Time	10:15-10:30 & 14:30-15:00 10:15-10:40 & 14:30-15:00 10:15-10:45	November 12 [Tue.] November 13 [Wed.] - 14 [Thu.] November 15 [Fri.]

Lunches

Lunch will be provided to all participants during the conference. Please bring your lunch coupons with your name badge.

Location	Delizia 3F	
Operating Time	12:00-13:00	November 12 [Tue.] - 15 [Fri.]

Hotel & Tour Desk

Location	Conference Room Lobby 3F	
Operating Time	09:00-18:00 09:00-15:00	November 12 [Tue.] - 14 [Thu.] November 15 [Fri.]

The Tour & Hotel Desk will be located near the registration desk. Please contact this desk for all hotel and tour related information. Participants can also buy a flight ticket and change the flight schedule at this desk. Staff of TN Korea, which is ICAE 2013's official Travel Agency, will be at the desk.

Suttle Bus Service

Participant will be free to use shuttle buses between the venue and official hotels during the conference.

Social Programs

Opening Ceremony

ICAE 2013 opening ceremony will officially get started at Halla Hall. All registered participants are cordially invited to join us and celebrate the official opening.

Date & Time 10:30-10:40, November 12 (Tue.)

Place Halla Hall 3F

Welcome Reception

You will experience a warm welcome from the host of ICAE 2013. All participants are highly welcome. Light refreshments will be provided free of charge.

Date & Time 18:00-19:30, November 12 (Tue.)

Place Ocean View 5F

Banquet

All delegates and their accompanying guests are invited to join "Conference Banquet". This official main event will be a rare opportunity for foreign participants to experience Korea hospitality and wonderful performance in an exotic environment. We are sure that this banquet will be memorable for all attendants.

Date & Time 18:00-20:00, November 14 (Thu.)

Place Tamna Hall 5F

Sponsor

Remark Banquet coupon will be available for who finalize the confirmation by replying the attendance to the secretariat. On-site registration is available at the registration desk until 12:00 on November 13 (Wed.).

Prize Draw at Poster Session

There will be a drawing in which participants will be given gifts (**1 iPad mini and 2 1TB external HDD**) at each Poster Session. Please do not miss this chance and stay in Poster Session Place by the end of each Poster Session.

Technical Program

Presentation Guidelines

Oral Presentation

- Length of oral presentation material should be in accordance to your time assigned, 15 min. (Invited Speaker: 30min.) including Q&A.
- Presenters should prepare the presentation file in MS-PowerPoint in English.
- **Please bring your PowerPoint presentation file** on a CD or USB memory stick and submit it to the operator of each presentation room **at least 10 minutes before each session starts.**
- **Each presenter is also asked to submit his/her own short autobiography** to the session chair at least 10 minutes before each session starts.

Poster Presentation

- Each poster will be assigned a panel, which has its own paper's number, at the conference.
- Poster presenters are required to prepare their own poster materials in advance and post their presentations 30 minutes prior to the beginning of the session.
- Please remove your poster within 1 hour after your session is ended. All remaining posters will be removed.
- The materials such as some scissors and tapes will be provided in Poster Session Place.

Ferroelectrics and Piezoelectrics: Fundamentals and New Materials (FP)

Oral Presentation

Nov. 12, 2013 (Tue.)

FP-1 (Ferroelectrics and Piezoelectrics: Fundamentals and New Materials 1)

Samda A

Chairs : Dr. Wook Jo (Technische Universität Darmstadt)

09:00-10:15

Prof. Satoshi Wada (University of Yamanashi)

FP-4543 Electric Field-induced Structure in NBT-based Relaxors

09:00-09:30 Pam A. Thomas, David I. Woodward, Dean S. Keeble, David Walker, Shashwath Anand

Invited Speech *University of Warwick*

FP-0720 Synchrotron X-ray Diffraction Analysis of La-doped BNKT Ceramics

09:30-09:45 Thi Hinh Dinh¹, Changhyo Hong¹, Hyoung-Su Han¹, John Daniels², Wook Jo³, Jae-Shin Lee¹

¹*University of Ulsan*, ²*University of New South Wales*, ³*Technische Universität Darmstadt*

FP-4010 Reduction of Strain Hysteresis in Bi-based Lead-Free Ceramics by Embedding Ferroelectric Particles in Relaxor Matrix

09:45-10:00 Hyun-Young Lee, Thi Hinh Dinh, Hyoung-Su Han, Chang-won Ahn, Ill Won Kim, Jae-Shin Lee

University of Ulsan

FP-3045 Effects of Fe2O3 Addition on the Piezoelectric and Dielectric Properties of 0.99Pb(Zr0.53Ti0.47)03-0.01Bi(Y1-XFe)O3 Ceramics for Energy Harvesting Devices

10:00-10:15 Iqbal Mahmud, Soon-Chul Ur, Man-Soon Yoon

Korea National University of Transportation

Nov. 12, 2013 (Tue.)

FP-2 (Ferroelectrics and Piezoelectrics: Fundamentals and New Materials 2)

Samda A

Chair : Prof. Pam A. Thomas (University of Warwick)

13:00-14:30

FP-2354 Temperature Dependence of Electric Field Induced Strain in Coarse- vs. Fine Grained Morphotropic PZT Ceramics

13:00-13:30 Invited Speech Hans Kung¹, Manuel Hinterstein²

¹*Forschungszentrum Juelich*, ²*Institut für Werkstoffwissenschaft*

FP-1103 Fabrication and Electrical Properties of Dense (Bi $\frac{1}{2}$ K $\frac{1}{2}$)TiO₃ Ceramics and Their Multilayer Actuator

13:30-14:00 Invited Speech Hajime Nagata, Kazuya Tabuchi, Tadashi Takenaka

Tokyo University of Science

FP-2912 Enhanced Ferroelectric Ordering of Pb(Mg $\frac{1}{3}$ Nb $\frac{2}{3}$) \cdot 0.9TiO \cdot 1.03 Ceramics by ZnO Modification

14:00-14:15 Methee Promsawat¹, Anucha Watcharapasorn¹, Zuo-Guang Ye², Sukanda Jiansirisomboon¹

¹*Chiang Mai University*, ²*Simon Fraser University*

- FP-2631 Structural and Dielectric Properties of Lanthanum Doped Bi_{1/2}(Na_{0.82}K_{0.18})_{1/2}TiO₃ Lead-Free Piezoelectric Ceramics**
 14:15-14:30 Thi Hinh Dinh, Jin Kyu Kang, Dae Jun Heo, Chang Won Ahn, Jae Shin Lee
University of Ulsan

Nov. 12, 2013 (Tue.)

- FP-3 (Ferroelectrics and Piezoelectrics: Fundamentals and New Materials 3)** Samda A
 Chairs : Dr. Haibo Zhang (Technische Universität Darmstadt)
 Dr. Hans Kungl (Forschungszentrum Juelich) 15:00-16:45

- FP-0992 Optical Properties of Ferroelectrics – Detection of Electronic Band Gap Defects**
 15:00-15:30 Torsten Granzow
 Invited Speech *Centre de Recherche Public - Gabriel Lippmann*

- FP-0883 Ferroelectric and Piezoelectric Properties of Lead-free SrZrO₃-M Odified Bi_{1/2}(Na_{0.80}K_{0.20})_{1/2}TiO₃ Ceramics**
 15:30-15:45 Ali Hussain, Myong-Ho Kim, Jin-Soo Kim, Tae-Kwon Song, Won-Jong Kim
Changwon National University

- FP-2086 Evaluation of Stress and Oxygen Vacancy Distribution in MLCC using Raman Spectroscopy**
 15:45-16:00 Takeshi Tai, Hiromi Shima, Ken Nishida, Takashi Yamamoto
National Defence Academy

- FP-2610 Insight into the Electric Field induced Ferroelectric to Relaxor Transition**
 16:00-16:15 Wook Jo¹, John Daniels², Dragan Damjanovic³, Wolfgang Kleemann⁴, Jürgen Rödel¹
¹Technische Universität Darmstadt, ²University of New South Wales, ³Swiss Federal Institute of Technology in Lausanne - EPFL, ⁴Universität Duisburg-Essen

- FP-0493 Competitive Role between Polarization Rotation and Defect Dipole Alignment During Poling of (K, Na)NbO₃-based Lead-Free Piezoceramics**
 16:15-16:30 Fang-Zhou Yao¹, Ke Wang¹, Wook Jo², Jürgen Rödel², Li-Qian Cheng¹, Jing-Feng Li¹
¹Tsinghua University, ²Technische Universität Darmstadt

- FP-0306 Current-Voltage Characterization of Oxide Thin Films**
 16:30-16:45 Yaodong Yang¹, Zhiguang Wang², Dwight Viehland²
¹Xi'an Jiaotong University, ²Virginia Tech

Nov. 13, 2013 (Wed.)

- FP-4 (Ferroelectrics and Piezoelectrics: Fundamentals and New Materials 4)** Samda A
 Chairs : Dr. Torsten Granzow (Centre de Recherche Public-Gabriel Lippmann)
 Prof. Ke Wang (Tsinghua University) 09:00-10:15

- FP-0489 High Piezoelectricity of BaTiO₃ based Lead-Free Ceramics**
 09:00-09:30 Bo-Ping Zhang, Li-Feng Zhu, Lei Zhao, PengFei Zhou
 Invited Speech *University of Science and Technology Beijing*

FP-2550 Crystal Structure and Piezoelectric Properties of Five Component Langasite La_{3-x}Sr_xTa_yGa_{5-x+y}Si_{1+x-2y}O₁₄

09:30-09:45

Hitoshi Ohsato

Nagoya Industrial Science Research Institute

FP-0235 Electromechanical, Piezoelectric and Microstructure Study of the (1-x)Ba(Zr_{0.2}Ti_{0.8})O₃-x(Ba_{0.7}Ca_{0.3})TiO₃ System

09:45-10:00

Matias Acosta, Heide Humburg, Wook Jo, Michael Sherrer, Ljubomira Ana Schmitt, Hans-Joachim Kleebe, Jürgen Rödel

Technische Universität Darmstadt

FP-1071 Effect of Intermixing and Composition on Polarization of Ferroelectric Superlattices

10:00-10:15 Khian-Hooi Chew¹, Kok-Geng Lim¹, Hock-Lye Ong²

¹University of Malaya, ²Universiti Sains Malaysia

Nov. 13, 2013 (Wed.)

FP-5 (Ferroelectrics and Piezoelectrics: Fundamentals and New Materials 5)

Samda A

Chair : Prof. Bo-Ping Zhang (University of Science and Technology Beijing)

13:00-14:30

FP-1907 Temperature-Insensitive Strain Behavior in KNN-based Lead-Free Piezoceramics

13:00-13:30 Ke Wang¹, Fang-Zhou Yao¹, Wook Jo², Danka Gobeljic³, Vladimir V. Shvartsman³, Doru C. Lupascu³,

Invited Speech Jing-Feng Li¹, Jürgen Rödel²

¹Tsinghua University, ²Technische Universität Darmstadt, ³Universität Duisburg-Essen

FP-5006 Giant Electric-field-induced Strain in Bi-based Lead-free Piezoelectric Ceramics

13:30-14:00 Hyoung-Su Han¹, Wook Jo², Jae-Shin Lee¹

Invited Speech ¹University of Ulsan, ²Technische Universität Darmstadt

FP-3809 Characteristics of Nanosized BaTiO₃ Powder Synthesized by Co-precipitation Process Assisted by High Energy Ball Milling

14:00-14:15 Xin He¹, Youn-Kyu Choi², Sung-Soo Ryu¹

¹Korea Institute of Ceramic Engineering and Technology, ²Samsung Fine Chemical

FP-2840 Origin of Polar Nano Regions (PNR) in Relaxor Ferroelectrics: Nonlinearity, Discrete Breather

14:15-14:30 Formation and Charge Transfer

Annette Bussmann-Holder

Max-Planck-Institute for Solid State Research

Nov. 13, 2013 (Wed.)

FP-6 (Ferroelectrics and Piezoelectrics: Fundamentals and New Materials 6)

Samda A

Chairs : Prof. Hajime Nagata (Tokyo University of Science)

15:00-16:45

Prof. Hitoshi Ohsato (Nagoya Industrial Science Research Institute)

FP
Oral

- FP-1829 Dielectric Enhancement of Barium Titanate-based Nano-complex Ceramics with Heteroepitaxial Interfaces**
 15:00-15:30 Satoshi Wada, Hideto Kawashima, Yoshinobu Hirose, Shuhei Tsukamoto, Shintaro Ueno, Kouichi Nakashima, Nobuhiro Kumada
University of Yamanashi

- FP-4454 Preparation and Electrical Properties of BNT-based Lead-free Piezoelectric Thick Films**
 15:30-16:00 Haibo Zhang, Wook Jo, Jiadong Zang, Jürgen Rödel
Invited Speech Technische Universität Darmstadt

- FP-3897 Investigations of Ferroelectric Polarization Switching in Potassium Nitrate Composite Films**
 16:00-16:15 Neeraj Kumar¹, Jasbir Singh Hundal²
¹Amity University Rajasthan, ²Giani Zail Singh Punjab Technical University Campus

- FP-2474 Microstructure and Electrical Properties of Li-, Ta-, Sb- Modified NKN/PVDF-TrFE Composites by Tape-casting Method**
 16:15-16:30 Choong-Hyuck Lim¹, Joong-Hee Nam¹, Ji-Sun Yun¹, Young-Hun Jeong¹, Jeong-Ho Cho¹, Jong-Hoo Paik¹, Yong-Soo Cho²
¹KICET, ²Yonsei University

- FP-4127 Synthesis of Lead Free Air Sintered (Bi1/2A1/2)-modified BaTiO₃ (A=Na, K) PTC Ceramics by Ca Addition**
 16:30-16:45 Hiroaki Takeda, Mohammad A. Zubair, Hitomi Akutsu, Takuya Hoshina, Takaaki Tsurumi
Tokyo Institute of Technology

- Chairs :** Dr. Masatomo Sumiya (National Institute for Materials Science)
 Dr. Meeryoung Cho (Korea Institute of Lighting Technology)

09:00-10:15

- LT-0287 An Engineering Method to Estimate Junction Temperatures of Light Emitting Diodes in Multiple LEDs Application**
 09:00-09:30 Invited Speech Xiaobing Luo, Xing Fu
Huazhong University of Science and Technology

056

- LT-3495 Improved White Light Emitting Diode Characteristics by Coating GdAG:Ce Phosphor**
 09:30-09:45 Charusheela Joshi¹, Pooja Yadav¹, S.V. Moharil²
¹*Shri Ramdeobaba College of Engineering and Management*, ²*RTM Nagpur University*

LT-3312 Material Classification using Hyperspectral Images (HSI) and LED Light

09:45-10:00 Min-Sheob Shim, Sungho Kim, Jasoon Jang
Yeungnam University

LT-0874 Study on Optical Performances of Nonuniform Phosphor Distribution in Phosphor Dip-transfer Coating for Phosphor-converted White LEDs

10:00-10:15 Huai Zheng, Xiaobing Luo
Huazhong University of Science and Technology

Nov. 14, 2013 (Thu.)

LT-5 (Advanced LED and Lighting Technology 5)

303

Chair : Prof. Xiaobing Luo (Huazhong University of Science & Technology)

13:00-14:30

LT-3735 Review on the Application of LED Fishing Lights

13:00-13:30 Heui-Chun An¹, Sam-Kwang Cho¹, Ja-Soon Jang²

Invited Speech ¹National Fisheries Research & Development Institute, ²LIFTRC & Yeungnam University

LT
Oral

LT-3053 Integrated Optical and Emotion Assessment Techniques for User Centered Guidelines

13:30-14:00 Development in LED System Lighting

Invited Speech Meeryoung Cho
Korea Institute of Lighting Technology

LT-2907 Performance of CSK Scheme for V2I Visible Light Communication

14:00-14:15 Hyeon-Cheol Kim, Ja-Soon Jang, Sung-Yoon Jung

Yeungnam University and LED-IT Fusion Technology Research Center

LT-2175 Comparative Chemical Wet Etching Studies of Semipolar (11-22) Undoped and Si-doped GaN Grown on m-sapphire

14:15-14:30 Hye-Rin Yi, Ki-Ryoung Song, Sang-Hyun Han, Jae-Hwan Lee, Sung-Nam Lee
Korea Polytechnic University

Nov. 14, 2013 (Thu.)

LT-6 (Advanced LED and Lighting Technology 6)

303

Chair : Prof. Ja-Soon Jang (LIFTRC & Yeungnam University)

15:00-16:30

LT-1739 IT Convergence of OLED/LED Lighting System for Color Therapy

15:00-15:15 Woo Je Lee, Hyun Sung Yu, Sang Jeon Hong
Myongji University

LT-2885 Optimal Signal Amplitude of OFDM Systems in Dimmable Visible Light Communications

15:15-15:30 Kyungsu Yun¹, Changho Lee², Kang-II Ahn³, Rimhwan Lee¹, Ja-Soon Jang¹, Jae Kyun Kwon¹
¹*Yeungnam University*, ²*Samsung Electronics*, ³*Mando Global R&D Center*

ICAE2013 Green Energy Convergence Forum

November 13

ICC Jeju, Jeju, Republic of Korea

(Official Language: Korean)

Objectives

The aim of the ICAE 2013 Green Energy Convergence Forum is to provide opportunity for share recent information on green energy convergence field including policy, technology, trend and current state of industry. The forum also wants to provide a method of linking student employment with corporations. And then, the perspectives of the green energy industry and effective student employment linkage will be discussed by the panels. Moreover, this forum will try to provide the participants from public organizations, universities, research institutes or related corporations with possibilities for understanding to overcome the present situation that we meet across the economic regions domestically and beyond the country to the world.

Forum Agenda

The theme of the forum is Realization of Creative Economy - the perspectives of the green energy industry and effective student employment linkage. Presentations will be provided by two professionals for each topic closely related to the theme. One is the perspectives of the green energy industry, the other is effective student employment related to the corporations of corresponding industry. The panels including speakers, directors of YU LINC and Kumoh National Institute of Technology LINC, professionals will conclude through discussion.

Program

-16:30	Registration
16:30-16:35	Opening Statement and Welcoming Address
16:35-18:50	Presentations I. The Role of Yeungnam University LINC for the Creative Economy and New Job Creation II. The Role of Kumoh National Institute of Technology LINC for the Creative Economy and New Job Creation III. Perspectives of the Green Energy Convergence Industry IV. Realization of Creative Economy - Effective Linkage of Student Employment with Corporations
18:50-19:40	Panel Discussion Theme: Industry-University-Institute Cooperation Models for the Invigoration of Creative Economy (Green Energy Convergence Industry Perspectives & Effective Student Employment Linkage)
19:40-	Reception & Closing Statement

* Only for the person invited, dinner meeting is provided, if available.

I.V. Solution & SnM are the authorized distributor of Tektronix and Keithley of the world's leading supplier of measurement instruments. Also, we are the authorized distributor of MS Tech, Probe-station Total Solution company. We are supplying the electrical characterization analyzing systems of semiconductor materials, insulators and conductors at the national research institutes, universities and research institutions, enterprises and R & D Institute. We will promise to provide optimized measurement solutions to meet our customers of production and experimental Needs based on accumulated experience and know-how in the field of AC, DC, RF measurements during last 15 years.

The future of your support and encouragement deurimyeo, please always be healthy and happy.

Yeungnam University Leaders in INdustry-university Cooperation (YU LINC) was established in April, 2012 with a goal to train and supply high quality human resources for green energy convergence & integration industry through the cooperation between university and industry, in accordance with the Korean government's plan to develop new leading universities and industries. YU LINC is focused on the change of university education system through academic-industrial cooperation for the realization of our university vision "YU Glocal Initiative and YU to the Future", and continues our efforts to create new convergence and multidisciplinary education programs and cooperation systems. We would like to show and share the programs and the outcomes of the YU LINC with related organizations, professionals and participants of ICAE 2013 from domestic and overseas.

Kumoh National Institute of Technology, LINC (Leaders in INdustry-university Cooperation)

- **Address** 61 Daehak-ro (yangho-dong), Gumi, Gyeongbuk 730-701, Korea
- **President** Suk Chae
- **Contact Person** Suk Chae (Company Support Department)

Kumoh National Institute of Technology was established by the late President Park Chung-Hee for cultivating high-quality human resources with the founding philosophy "truth, creation, honesty" on March 1980. From the beginning until now, we have constantly tried to be the top international university through the vision "the realization of the specialized university" to meet the demands of the times and historical mission for the Republic of Korea.

Our university has been joining LINC (Leaders in INdustry-university Cooperation) governed by the Ministry of Education, thanks to change the university education system through academic-industrial cooperation for cultivating Humanity man, Expertise man, Creativity man, and Globalization man on the basis of the founding philosophy "truth, creation, honesty".

LINC Programs at Kumoh National Institute of Technology aim to simultaneously develop local companies and university by achieving the specialized university, by strengthening education and research of university satisfied with industry field demands, and by utilizing manpower resources and technical skills of university for local companies.

Kumoh National Institute of Technology has been trying to perform the important role of local industry-university Hub by constructing the interactive system of industry-university-research-government on the basis of consensus of industry-university cooperation through LINC programs.

We'll do our best to be a competitive organization on the basis of the beliefs "self-regulation, creativity, the mission of university".

The Solar Energy-Convergence-Green Energy Consortium, consisting of five Regional Innovation Centers (RIC's), is aiming at setting up an Industry-University cooperative system and supporting local renewable energy industries by means of R&D infrastructure construction and technology development assistance. Five participating RIC's are actively collaborating with each other to support inter-regional green energy companies by sharing R&D infrastructure, exchanging human resources and performing joint research project.

Currently, the following five RIC's are participating in the consortium:

- Yeungnam University(Hub Center) : Regional Innovation Center for Solar Cell & Module
- Woosuk University : Hydrogen Fuel Cell Parts & Applied Technology Regional Innovation Center
- Sunchon National University : Green Technology Fused Advanced Materials Regional Innovation Center
- Kwandong University : Waterfront and Coastal Research Center
- Ulsan University(Performance Utilization Center) : Network-based Automation Research Center

LED-IT Fusion Technology Research Center

• Address	Yeungnam Univ., 280 Daehak-Ro, Gyeongsan, Gyeongbuk 712-749, Korea
• President	Ja-Soo Jang
• Contact Person	Jihwan Kim (Researcher)
• Tel / Fax	+82-53-810-4321~7 / +82-53-810-4764

LED-IT Fusion Technology Research Center (LIFTRC) was established in 2009 by supporting Korea government and Regional governments (Gyeongbuk, Daegu and Gyeongsansi). The main aim of establishing LIFTRC is to lead advanced LED and the lighting fusion technologies for LCD, Automobile,

General & Smart Lighting industries, and hence contribute to the related LED industries in the world. Consequently, we will be a global leader in the LED-IT fusion technologies.

Since 2009, we have been tried to develop the pioneer fundamental and applicable technologies with domestic and oversea partners, and also build up the Core Fusion-Technology Hub of Northeast Asia. We have already set up inspection and analyzing systems that can satisfy international measurement standards. Currently all equipment ranging from EPI to lighting applications have been installed within the LIFTRC. Very recently, we have successfully developed high-performance dental lighting and automotive front-lighting systems, super brightness LEDs, high power packages, and IT-controllable systems. In addition, useful and convergence technologies that can be directly available in the LED industries have begun to be successfully demonstrated. Moreover, global collaboration network is successfully expanding. Based on our accumulated Know-How, fruitful experience, technical capabilities, and domestic/international cooperation network, we have no doubt in our capability to be a best partner for your company, institute, and university in fulfilling the goals. As a director, we are continuously trying to enhance our activities and strategic movement.

We are looking forward to being a strategic partner, and always welcome to LIFTRC. We are always ready to collaborate with you to make great values. We appreciate your interest and encouragement.

pISSN: 1229-7607 eISSN: 2092-7592

In the journal, some of the covered technical areas are

- Semiconductors
- Electronic Ceramics
- Insulation Materials
- Thin Film and Sensors
- Display and Optical Devices
- Superconductor and Magnetic Materials
- Nanomaterials and Nanodevices
- Energy Materials
- High Voltage and Discharge Engineering
- Interdisciplinary and Engineering Educations
